

This one-day workshop will introduce you to the principles, practices, tools and benefits of integrated pest management, an approach that controls pests while reducing human exposure to chemicals and saving money.

During this one-day event, you will learn from national experts on management of pests in schools as well as from Indiana schools that have successfully implemented it here at home.

Got Pests?

Integrated Pest Management

*A Workshop for School
Facilities Managers*

Thursday July 16, 2009

Pike Freshman Center

**6801 Zionsville Road
Indianapolis, IN
46268**

Speakers

Dr. Marc Lame is Clinical Assistant Professor at the IU School of Public and Environmental Affairs in Bloomington, IN. He has worked with schools across the country and is a recognized expert in pests, pesticides and IPM.

Dr. Dawn Gouge is Associate Specialist and Associate Professor – Urban Entomology at the University of Arizona. She directs the State Arizona Children's Environmental Health Coalition efforts, which includes implementation of Integrated Pest Management in Schools and Child Care Facilities.

Jerry Jochim is the Environmental Technician for the Monroe County Community School Corporation in Bloomington and has been implementing and monitoring an Integrated Pest Management program for more than twenty schools in the MCCSC since 1997.

Raul Rivas is Director of Facilities for the Pike Township Schools and a former elementary school principal.
